

● Full transparency allows for continuous visual contact of wound and skin for better control of wound condition

● No dressing change needed for wound inspection

The high-flexibility makes the dressing feel like a second skin

● Showerproof and up to 7-day wear time

# Leukomed<sup>®</sup> Control Post-Op Dressing

*HELPING TO PREVENT SURGICAL SITE INFECTIONS*

**Leukoplast<sup>®</sup>**

Wound care in best hands

# The first choice for second skin

## Totally Transparent Composition

- Quick detection of first signs of infection possible
- Reduce number of dressing changes

## Ultra-thin, Conforming Film That's Like a "Second Skin"

- Readily adapts and moves with skin's flexion and edema through reliable, skin-friendly adhesive border
- Highly breathable and conformable - helps prevent skin maceration and tension blisters
- Transparent, low-friction, matte surface
- High wearing comfort for patients

## Thin, Absorbent Hydropolymer Wound Pad

- Ensures optimal moisture level of wound and surrounding skin
- Keeps wound clean and ready for epithelialization
